It's simple. It's efficient. It's revolutionary. The Skywell 5

How it works

Just plug it in; the Skywell 5 takes in ambient air, and through a proprietary condensation process it collects moisture, then meticulously filters it to remove impurities.

Why its better

No rusty pipes. No delivery trucks. No plastic bottles. The Skywell 5 delivers pure, fresh water.

Model code	SKYWELL 5
Power rating	AC120V 60Hz/9 Amps
Power	675W
Cold water temperature (min)	37°F (3°C)
Hot water temperature (max)	201°F (94°C)
Water storage capacity	4.5 gallons
Operating temperature range	37°F - 201°F
Required humidity	>25%
Noise level	<43 dB
Net Weight	118.7lbs
Dimensions (HxWxD)	48.4" x 12.6" x 18.9"
